

2018 USATF Masters East Region Report '

January 27, 2019 - USATF East Region Masters Indoor Championships:

The East Regional was again held at the Career & Technical High School in Providence, RI. This is the 9th time that the regional has been held here. The meet also served as the New England Association Masters Indoor Championship. Big thanks to Bob Palazzo who is instrumental in making this great facility our home for many years. This years' meet had a meet record of 205 athletes entered from the throughout the country.

We had M80 relay teams in both the 4x400 and the 4x800 break American records. However, neither race had the requisite number of competitors. The records could not be ratified.

Age graded awards (\$150) went to the following:

David Monteith, Ridgefield, CT
George Mathews, Edmond, WA
Sandy Triolo, Baltimore, MD
Sarah Thornton, Lexington, MA

The 2019 East Region and the Southeast Region joined forces to offer athletes a "Super" Regional on June 1-2. The meet was held at the Howard Community College in Columbia, MD. Warm summer temps welcomed 325 athletes from all over the country to earn medals from both the East and Southeast regions.

By all accounts the meet was a great success! Many fields were well filled. The meet would have not been possible without the help of the Potomac Valley TC. Our friends at PVTC stepped up to handle the awards tables, officials, registration tables, etc.

Looking ahead, the 2020 USATF Masters Indoor Region meet will be held in Landover, MD on January 19. Entries should be ready in November!
