

USATF Masters T&F Report – Records

10/31/2020

By Jeff Brower, Chair

As of this date, 51 record applications have been processed in 2020:

National Indoor Combined Event Championships 4
Other Indoor Meets 28 (Relays 7, Non-Relays 21)
Other Outdoor Meets 19 (Relays 1, Non-Relays 18)

Some of the applications received recently are still under review. The current status of each current & past application is still available at www.usatfmasters.org, and will be permanently stored online.

Most major meets were cancelled due to the Covid-19 Pandemic.

We continue to provide current records for the meet management software (Hytek) at major meets, and the timely periodic ratification process continues to be enthusiastically appreciated by athletes, officials and fans.

The Record Lookup program implemented in 2019 is still in use, although the national office is attempting to implement something similar. What they've developed to date does not have all the features our current Record Lookup software provides. In addition, USATF has not provided a mechanism or process to maintain the record software they're attempting to develop.

2020 Budget: \$3000

Expenditures – Zero so far

2021 Outlook

Hopefully the budget will continue to cover attendance at the Indoor & Outdoor National Championship meets.

Anticipated Expenses are:

Travel: \$2400

Other: \$600 (Additional Software Development)

Amount Unused from 2020 Budget: \$3000
